

PUBLIC LECTURE

The 2013 Nobel Prize in Physics was awarded to
Francois Englert and Peter Higgs for a discovery
“that contributes to our understanding of the origin of mass”

What does it all mean...? Find out in this public lecture!

Higgs Boson and Beyond: the Big Questions in Particle Physics

Prof. Mark Neubauer
University of Illinois at Champaign-Urbana

When: Thursday, November 7, 2013 at 7:00pm

Where: Monsanto Auditorium in the Bond Life Sciences Center,
at the University of Missouri

This is a public lecture hosted by
MU Department of Physics & Astronomy and the American Physical Society.

Everyone is welcome to attend.
